

MEET DOCTORS GLEASON

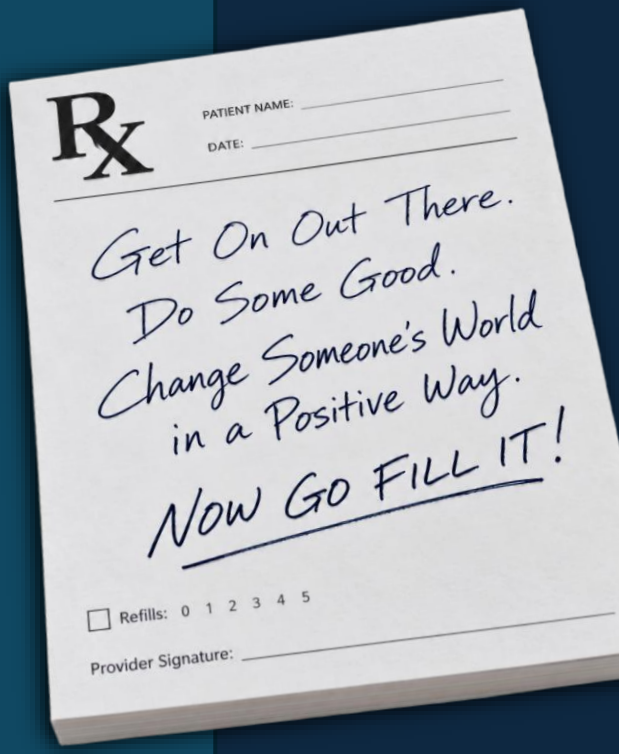

FROM PRESCRIPTIONS TO PLAYLISTS.

Meet Jason and Christopher Gleason, a married couple, military veterans, and doctoral-prepared, board-certified nurse practitioners with a passion for creative writing, storytelling, and songwriting.

Together, they harness the power of music and technology to turn important health messages into songs people actually want to hear. Think public service announcements reimagined for today's generation, with a fresh, entertaining, and educational twist!

From PTSD and mental health to blood pressure, cholesterol, diabetes, colorectal cancer screening, substance use disorders, women's health, and so much more. Their mission is simple: help people live healthier, happier lives through the power of education and music.

They've written thousands of prescriptions over the years. But this time, they've got one for everyone... GET ON OUT THERE. DO SOME GOOD. CHANGE SOMEONE'S WORLD IN A POSITIVE WAY!

INTRODUCING THEIR TWO DEBUT SONGS

SPOUSE OR PARTNER
Release / October 30, 2026

He came home from war, but PTSD keeps him worlds away. Through his wife's eyes, this song captures the heartache of loving someone still fighting an invisible battle, and the hope of finding their way back to each other.

VETERAN WITH PTSD
Release / November 6, 2026

He survived the war, but PTSD followed him home. Through his eyes, this song captures his invisible battles, the struggle to reconnect with those he loves, and the hope of finding himself again.

"HE CAME HOME. BUT HE AIN'T MADE IT BACK"

Two companion singles tell one story: the invisible wounds of PTSD, the family who feels their impact, and the hope of finding a way back to one another.

conversation starter

Arriving just ahead of Veterans Day on November 11, 2026, these two heartfelt songs remind veterans and their families that PTSD doesn't have to be faced alone. Through love, understanding, open conversations, and the courage to seek help, healing is possible, hope can return, and families can find their way back to each other.

LET'S TELL A STORY
YOUR AUDIENCE WILL REMEMBER.

Available for podcast conversations, radio, television and feature interviews on PTSD, veterans, health education, songwriting, harnessing technology and the power of storytelling.
